MORE THAN 1,400 APPLICATIONS TO TESTIFY HAVE BEEN RECEIVED

Due to the four days allotted to the hearings, only a fraction of the applicants will have the opportunity to testify. Over 50 witnesses will testify under oath, sharing their stories and helping create a public record of what they have experienced.

We will, however, be submitting all the stories we have received to the official record, ensuring that their voices are accounted for. Our purpose is simple: to give injured Canadians permission to share their stories.

After years in which many injured Canadians have struggled to have their experiences acknowledged, these hearings will provide an opportunity for their stories to be heard directly by Canadian lawmakers.
